

MAX KANTOR

Director of Software Engineering • Senior Engineering Manager • Cloud & SaaS Leader

Cumming, GA • (678) 517-4662 • mykantor@bellsouth.net • maxkantorportfolio.com

EXECUTIVE SUMMARY

Technology leader with 20+ years of software engineering experience and 15+ years leading engineering teams delivering cloud-native SaaS, enterprise platforms, and AI-powered applications. Proven record modernizing legacy systems, building high-performing teams, and aligning technology strategy with business objectives. Hands-on leader with deep expertise in .NET, React, SQL, AWS, distributed systems, DevOps, and applied AI.

EXECUTIVE HIGHLIGHTS

- 15+ years leading software engineering teams across cloud, enterprise, and SaaS platforms.
- Built production AI applications integrating OpenAI APIs, AWS Bedrock, Stripe, and serverless AWS services.
- Modernized legacy systems into cloud-native .NET, React, Angular, and AWS architectures.
- Improved engineering execution through Agile delivery, CI/CD automation, code review discipline, and release governance.
- Partnered with executive stakeholders to define technical roadmaps, modernization strategy, and product direction.
- Hands-on leadership across architecture, DevOps, hiring, mentoring, stakeholder communication, and delivery improvement.

PROFESSIONAL EXPERIENCE

Founder & Director of Engineering | Jan 2026 – Present

Self-Directed AI Product Development – Cumming, GA

- Architected and launched AI-powered SaaS platforms using React, Tailwind CSS, .NET 8, AWS Serverless, OpenAI, AWS Bedrock, and Stripe.
- Designed cloud-native backend services with AWS Lambda, API Gateway, DynamoDB, S3, SES, Route 53, CloudWatch, and Amplify to support scalable product delivery.
- Built full-stack platforms for AI automation, video dubbing, content localization, analytics, fitness, wellness, and content workflows.
- Implemented responsive UI/UX experiences, secure token-based credit usage, Stripe payment flows, admin CRM visibility, SEO, and deployment automation.
- Applied Cursor AI and GitHub Copilot to accelerate development workflows while maintaining hands-on architecture, code quality, and production ownership.

Technologies: React, Tailwind CSS, Angular, .NET 8, C#, TypeScript, AWS Lambda, API Gateway, DynamoDB, S3, CloudWatch, Amplify, Route 53, OpenAI APIs, AWS Bedrock, Stripe, Cursor AI, GitHub Copilot.

Senior Software Development Manager | Apr 2023 – Apr 2026

Wintergreen Corporation – Alpharetta, GA

- Directed a cross-functional engineering team of 6 engineers delivering enterprise web platforms, cloud-native software solutions, and business-critical applications.
- Improved delivery predictability through Agile process improvements, dependency removal, code review discipline, and CI/CD pipeline optimization.
- Drove architecture decisions focused on scalability, maintainability, reliability, and modernization across .NET, Angular, SQL Server, AWS, and Azure DevOps environments.
- Partnered with business stakeholders, product teams, and executive leadership to translate operational needs into practical engineering roadmaps and delivery plans.
- Mentored engineers through architecture reviews, delivery governance, technical decision-making, and modern AI-assisted development practices.

Technologies: .NET, C#, React, Angular, SQL Server, Azure DevOps, AWS, GitHub Copilot, Cursor AI, Bitbucket.

Senior Application Development Manager / Scrum Master | Jan 2016 – Mar 2023

Rollins Inc. – Atlanta, GA

- Oversaw enterprise Agile delivery and distributed engineering operations supporting large-scale, high-availability systems used across nationwide field operations.
- Managed Scrum and Kanban execution across cross-functional distributed teams, improving predictability, transparency, planning discipline, and delivery accountability.
- Led enterprise architecture discussions, sprint planning, branching strategies, release governance, and automated deployments using Azure DevOps and Octopus Deploy.
- Directed secure data and transactional integrations with enterprise and financial partners including Fiserv, UKG, Wells Fargo, and JPMorgan Chase.

- Partnered with stakeholders across business, operations, product, and engineering to deliver reliable enterprise platforms and support critical business workflows.

Technologies: .NET, C#, Angular, SQL Server, Azure DevOps, Octopus Deploy, REST APIs, Agile/Scrum.

Scrum Master / Senior Technical Lead | Jan 2015 – Dec 2015

NIIT Technologies – Atlanta, GA

- Served as Scrum Master and Senior Technical Lead for enterprise airline platform modernization initiatives.
- Led development planning, architecture guidance, Agile ceremonies, and senior engineering mentorship across modernization workstreams.
- Implemented Sitecore CMS and distributed messaging solutions to support enterprise content, integration, and data delivery requirements.

Technologies: .NET, C#, VB.NET, Sitecore CMS, Distributed Messaging Systems, SQL Server, Agile/Scrum Frameworks.

E-Commerce Engineering Manager | Feb 2014 – Dec 2014

Springfield Corporation / PeachSuite – Atlanta, GA

- Managed engineering operations for a high-volume, customer-facing e-commerce platform supporting checkout, performance, release, and cloud delivery improvements.
- Led checkout flow modernization, application performance optimization, release improvements, and SQL Server database performance initiatives.
- Directed AWS infrastructure operations across EC2, S3, and RDS while improving platform maintainability and deployment stability.

Technologies: AWS (EC2, S3, RDS), .NET, ASP.NET MVC, C#, JavaScript, SQL Server, IIS.

Earlier Career Experience | Prior to 2014

McKesson | Global Connection | Cultura Technologies | Overgroup Consulting

- Built and modernized enterprise healthcare, telecom, CRM, OSS, and financial systems across team lead, software development manager, and chief architect roles.
- Led architecture migrations from legacy desktop and monolithic environments into scalable .NET enterprise platforms.
- Directed distributed software engineering teams and delivery models across onshore and offshore resources.

Technologies: .NET Framework, C#, ASP.NET, SQL Server, Oracle, Sybase, VB.NET, Architecture Migration Methods.

TECHNICAL LEADERSHIP & ARCHITECTURE SKILLS

- **Cloud & Distributed Systems:** AWS Lambda, API Gateway, DynamoDB, S3, CloudWatch, Route 53, SES, SQS, SNS, Azure, serverless architecture
- **Backend Engineering:** .NET / .NET Core, C#, ASP.NET MVC, Web API, REST APIs
- **Frontend Engineering:** React, Angular, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3, Bootstrap
- **AI & Automation:** OpenAI APIs, AWS Bedrock, GitHub Copilot, Cursor AI, AI-assisted SDLC workflows, LLM integration
- **DevOps & CI/CD:** Azure DevOps, GitHub Actions, Octopus Deploy, Git, Bitbucket, Jira, ServiceNow
- **Databases:** SQL Server, DynamoDB, MySQL, Oracle, Sybase, SSIS, SSRS
- **Leadership:** Technical roadmaps, platform modernization, Agile/Scrum, Kanban, hiring, mentoring, architecture reviews, stakeholder communication

CERTIFICATIONS & EDUCATION

- AWS Certified Cloud Practitioner – Amazon Web Services
- Professional Scrum Master I (PSM I) – Scrum.org
- Bachelor of Science, Mechanical Engineering – Moscow Automobile and Road Construction State Technical University
